- 2020 was a ripe year; 2021 leaner.
- June/July investment money transferred to budget and more over course of the Summer, \$100K transferred last week into operating, where most money is spent.
- April will show us with some carryover, about \$300K, but this is a normal amount for a fund balance.
- Tightening of the budget has been very successful.
- Lots of programming, but smaller expenses.
- PS states we are right on track.
- BH states we can pop the tax cap if needed.

Public Comment -VK in audience thanked the BOT for their support of programs for kids and teens, and for bringing in TV as director to support them.

New Business

-Annual review and 990 presented by Jason Odell of Ferretti & Odell CPA's.

- May look good as an institution to switch CPAs; consider for taxpayer's sake bringing in an independent audit firm, JO will recommend.

- New director and bookkeeper have been great for segregating duties properly.

- JO happy to continue to help along the way, as he understands our agency intimately.

- Discussion about reserves, and non-reserves.

- Timing of budgetary process and meaning of restricted funds discussed.

- Discussion on how past budgets looked and where we are today.

- Numbers in our OPEB liability have shrunk due to retirements of Lisa, Poppy, and Jean.

- Net position has increased.

- Strong fund balance may be called into question by taxpayers, but reserves spend down on operations this year will help offset that concern.

- Tax levy is our biggest source of income. Most expenses are predictable.

- Sale of land is unrestricted; sale of building is restricted.

- Motion to adopt review and 990 to file with the IRS moved by DM, and seconded by JR, Unanimous approval.
